

Overview:

In this project, students celebrated the splendor of all the colors in the rainbow by creating with color. They learned to identify color names, produced shades of color and illustrated their feelings with color. In their art pieces students demonstrated how color is a part of their everyday world by painting and drawing and singing.

Covered Objectives:

- 🖱️ **Shapes Solver**
 - Identifying the kind of shapes such as circle, square, triangle, rectangle and star.
 - Opening Kid Pix Deluxe 4 and sign into the program.
