

Overview:

In this project, Students stretched the limits of their imagination to recreate the way they see themselves – as a beautiful watercolor portrait or as a funny cartoon character. Using various graphic applications students retouched and reworked their digital photograph into amazing pieces of artwork. Afterwards, students combined all of their digital images into a card entitled "The Many Me's", made using Microsoft Publisher.

Covered Objectives:

Part I: Myself as Artwork

- ☞ Explain the project overview
- ☞ Play Meet a New Friends Game
- ☞ Take a Digital Photographs of each Camper
