

## TECHNOHero

## Junior

### Project Overview:

In this project, students present information about their personal hero. This person is someone who has made a significant contribution, which has positively impacted others. Using the Internet they gather facts to create a profile of their hero. This information is then arranged on slides to produce a multimedia presentation. Specifically students complete the following activities:

- **Session 1: My Hero**  
Differentiate between heroes and celebrities. Go online to research hero.
- **Session 2: Hero for a Day**  
Direct and create a video clip about their hero.
- **Session 3: Biography**  
Begin production on PowerPoint presentation.
- **Session 4: Make a Timeline**  
Use the organization chart feature of Microsoft PowerPoint to create a timeline that highlights the important events in the life of their hero.
- **Session 5: Me and My Hero**  
Use the table slide layout to categorize the similarities and differences between themselves and their hero.
- **Session 6: Hero Presentation**  
Share hero presentations with class.

- **Technical Skills:** multimedia, telecommunications.
- **Technology Integration:** history, social studies.
- **Software Applications:** Microsoft PowerPoint, Microsoft Internet Explorer.

Prepare students for the digital age with TechnoKids Computer Curriculum.
